

VIDEO & DATA CONNECTOR

The LKG 32/3ERG6 connector is an exciting addition to Link's LK Connectors lineup of hybrid gigabit connectors. It contains 3 Cat6 gigabit contacts and 4 RG6 coaxial contacts. The LKG 32/3ERG6 is designed specially for live entertainment and broadcast applications, with MADI digital audio and HD-SDI video in mind. The combination of Cat6 and RG6 in one trunk cable allows the user to send a wide variety of signals between locations. This cable is also compatible with Link's complete line of Widget series digital or analog break-in and break-out adapters. With the ability to run distances of over 100 meters, this cable is an ideal fit for stage to FOH or remote to OB applications.

CVS LK 3CAT6SF 4RG6 is the matching addition to Link' Eurocable lineup. As the newest member of the of hybrid cables, CVS LK 3CAT6SF 4RG6 provides a unified, rugged, and reliable path for all signals carried within the LKG 32/3E4RG6 connector. The combination of the LKG hybrid connector and hybrid cable allow for rapid connection of multiple signal types, avoid miss-patched individual connections, and help maintain signal integrity throughout the system.

Suggested Uses:

- Digital Audio Mixing Console interconnect, combining audio and control lines
- Video distribution between switchers, processors, and video displays
- Combining multiple camera signals and controls for remote switching

- High quality CAT6 Gigabit contacts

- Easy and error-free mating

- Audible snap in quick bayonet lock

- Excellent resistance against unlocking

- Guaranteed for over 2000 coupling operations

- Waterproof up to 10 m (33 ft) for 12 hours

- Metric cable relief

- Highly resistant black finishing

- Roller studs for easier coupling

- High resistance to shock and vibrations
